Summary

A motivated software developer with over a year of experience in full-stack development, specializing in Next.js and React.js. Skilled in building scalable web applications, developing RESTful APIs, and implementing secure authentication using NextAuth and JWT. Proficient in JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, and GitHub. Strong problem-solving abilities with a focus on performance optimization and clean code. Passionate about learning and contributing to innovative projects.

Education

Sant Gadge Baba Amravati University

2020 – 2023

Bachelor of Computer Application - BCA

Percentage : 84.57

Experience

Baxture Technologies Pvt Ltd

February 2024 – Present

Software Developer

Wakad, Pune

- Developing full-stack applications using Next.js and React.js, with expertise in JavaScript, HTML, and CSS. Built and optimized RESTful APIs in Next.js, ensuring efficient data handling and seamless client-server communication.
- Implemented secure authentication using NextAuth and JWT, enhancing application security and user management. Integrated ShadCN components for a modern and scalable UI, along with Tailwind CSS and Bootstrap for responsive design.
- Utilized GitHub for version control and collaboration, ensuring clean and maintainable code. Focused on performance optimization and best practices to improve application efficiency and user experience.

Projects

Mallory Construction Website | *Next.js, Tailwind CSS, Vercel*

Mini Project 3 Months

- Developed a responsive and SEO-optimized website for Mallory Construction using Next.js and Tailwind CSS. Implemented key features such as dynamic project portfolio, interactive service listings, contact form with email integration, and smooth navigation. Ensured fast performance with image optimization, lazy loading, and server-side rendering. Deployed the website on Vercel for seamless hosting and scalability.

Ticketing System Application | *Next.js, ShadCN UI, Prisma, PostgreSQL*

Major Project 6 Months

- Developed a scalable ticketing system for efficient issue tracking and management. Implemented a role-based access control system with separate modules for customers and admins. Customers can create, track, and update tickets, while admins can manage tickets, assign priorities, and provide resolutions. Integrated ShadCN UI for a modern and intuitive user experience. Used Prisma as an ORM for seamless interaction with PostgreSQL, ensuring efficient database operations and optimized performance.

Technical Skills

Languages: JavaScript, TypeScript, SQL, NoSQL, Java

Developer Tools: VS Code, Eclipse, Postman, Git

Technologies/Frameworks: NextJS, Prisma, RESTful APIs

Project Management: Jira, Agile methodologies

Coursework and Certification

- Java Full Stack Development Course, JSpiders Pune
- Certification of Diploma in Java, CCIT Amravati
- Web Development Course, CCIT Amravati
- Certificate in Web Development from Sololearn

Extracurricular Involvement

- Participated in various coding competitions, including contests on HackerRank and LeetCode, enhancing algorithmic thinking and coding speed.
- Utilized a variety of programming languages including JavaScript, Java, and C++ to tackle diverse challenges, enhancing versatility as a developer.
